PROFESSIONAL SUMMARY

MCA candidate with hands-on experience in Flutter application development, REST API integration, and responsive UI implementation. Proven capability in building cross-platform mobile solutions supported by backend services using Django and relational databases.

EXPERIENCE

Flutter Developer | SOXO December 2024 – May 2025

Contributed to healthcare-related mobile applications including Nura, Nura Insider, and Onedesk / Nura QR.

- Developed cross-platform mobile application features and responsive user interfaces using Flutter and Dart.
- Integrated REST APIs to connect frontend application modules with backend services, ensuring seamless data flow.
- Performed debugging, code maintenance, and feature enhancements across existing application codebases.

Flutter + Django Trainee | FineEdge May 2024 – November 2024

- Completed practical training focusing on Flutter, Dart, and Django backend development workflows.
- Implemented responsive user interfaces, integrated REST APIs, and practiced structured application debugging.

PROJECTS

SplitBite – Smart Food Ordering Application | MCA Project Flutter, Dart, Provider, Django, SQL Server

- Architected a full-stack food ordering application featuring Customer, Restaurant, and Admin modules with clean service separation.
- Implemented robust state management using Provider and integrated complex REST APIs for menu browsing, cart checkout, and wallet transactions.
- Built location-based restaurant discovery and advanced order management including scheduled delivery and real-time order tracking.
- Developed group ordering functionality supporting room/code-based participation, host payments, and automatic bill splitting.

DayForge – Habit & Task Tracker | Personal Project Flutter, Dart, Provider, SQLite

- Developed a local-first habit and task tracking mobile application utilizing SQLite for persistent storage and Provider for state management.

TECHNICAL SKILLS

Languages: Dart, Python, SQL

Mobile Development: Flutter, Android, iOS, Responsive UI

Backend: Django, Django REST Framework, REST APIs

State Management: Provider, Bloc

Databases: SQL Server, SQLite, MongoDB

Tools: Git, GitHub, Postman, Jira, Docker

EDUCATION

Master of Computer Applications (MCA) | APJ Abdul Currently Pursuing

Kalam Technological University

Bachelor of Computer Applications (BCA) | University of 2024

Calicut
